

Topic: Business Problem & Platform Vision

Duration: 5 Minutes

Core Theme: Overcoming Data Silos & Transforming Executive Decision-Making

Executive Summary: Focuses on why traditional reporting fails modern businesses, introduces Stratify AI as a real-time decision intelligence platform, and maps out the end-to-end business flow across all 6 stages.

1. Business Features & Connectivity

Feature Name	What It Does (Business Function)	How It Connects	Business Value & ROI
The Business Challenge	Modern enterprises suffer from delayed sales reports (taking 3-7 days), disconnected store data, spreadsheet clutter, and reactive decision-making.	Connects directly to the vision of Stratify AI as an automated, instant intelligence solution.	Eliminates reporting lag, reduces human manual errors by 95%, and provides C-suite executives with immediate operational clarity.
The Stratify AI Vision	An all-in-one executive command center that continuously streams sales data, validates accuracy, forecasts trends, and provides AI strategic advice.	Forms the central hub linking store transactions to executive strategy.	Accelerates decision cycles from days to minutes, empowering leadership to capture market opportunities faster.
End-to-End Business Flow	A seamless 5-stage lifecycle: Store Checkout → Automated Data Clean → Customer & Sales Intelligence → Live Control Center → AI Strategy → Automated Email Briefings.	Provides the overall map for all 6 presenters.	Creates total cross-departmental alignment with zero manual effort.

2. Slide-by-Slide Presentation Guide & Spoken Script

Slide 1: Welcome & Executive Summary

Visual Display (Live App): Live Demo Header & Corporate KPI Summary Banner

Key Presentation Points:

- **Live Decision Command Center:** Single-screen visibility across all retail locations
- **Real-Time KPI Visibility:** Live Total Revenue (₹1.32M), Net Margin (26.63%), 486 Active Customers
- **Executive Clarity:** Replacing static, delayed spreadsheets with continuous intelligence

Spoken Presentation Script (Non-Technical):

"Welcome everyone. Today we are excited to introduce Stratify AI, an executive decision intelligence platform designed to solve one of the biggest challenges in business today: delayed visibility. As seen on our live web portal header, Stratify AI replaces static spreadsheets with real-time KPI visibility—tracking total revenue, profit margins, and active customer accounts live."

Business Takeaway: Stratify AI replaces static, delayed reporting with real-time strategic intelligence.

Slide 2: The Business Pain Points

Visual Display (Live App): Financial Performance & Category Margin Analysis Dashboard

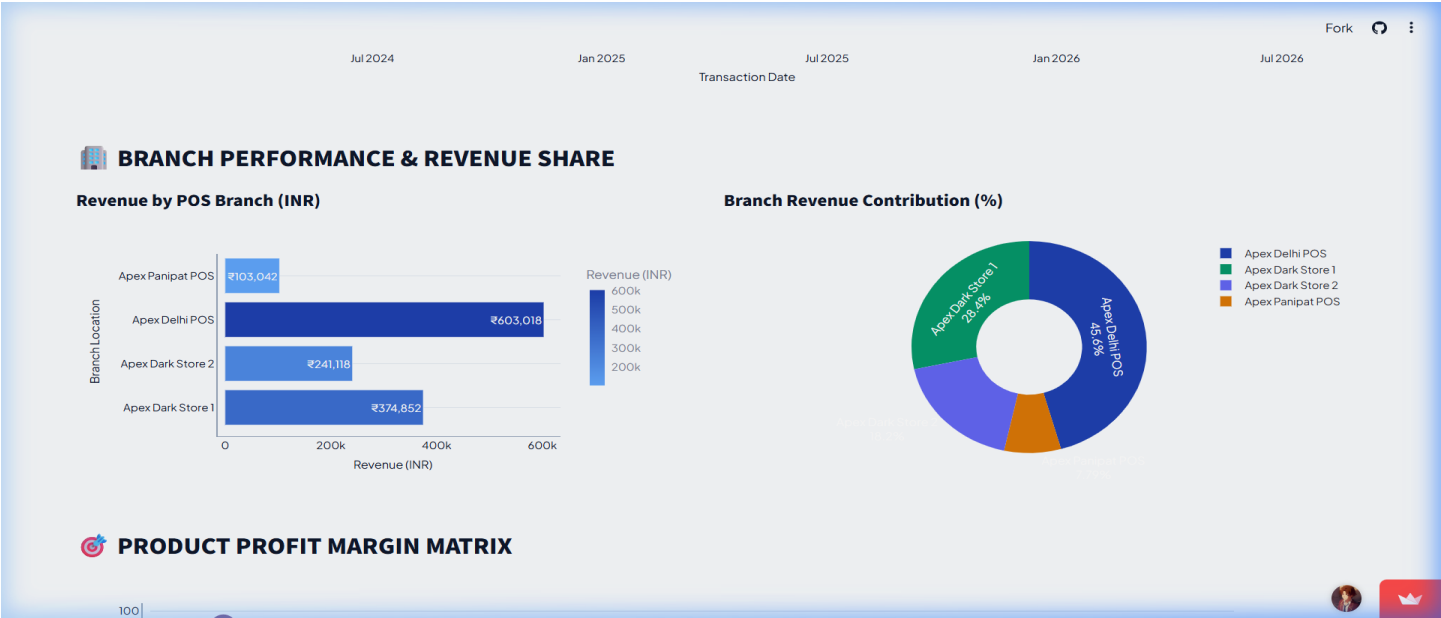

Key Presentation Points:

- **Siloed Enterprise Operations:** POS, inventory, and finance teams operating in isolation
- **Spreadsheet Bottlenecks:** 15+ hours lost copy-pasting raw CSV files every week
- **Reactive Decision Lag:** Identifying stockouts and margin drops days after revenue is lost

Spoken Presentation Script (Non-Technical):

"Let's look at the problem we face without a unified system. Checkout counters generate sales, but that data sits in store databases. Finance teams manually compile reports over the weekend, and by Monday, executives see what happened last week—not what's happening right now. This latency leads to missed stockouts, lost customer retention, and delayed promotional campaigns."

Business Takeaway: Manual reporting bottlenecks burn time and hide real-time revenue risks.

PRODUCT PROFIT MARGIN MATRIX

100

Slide 3: The End-to-End Stratify Solution Map

Visual Display (Live App): 5-Stage High-Level Business Flowchart

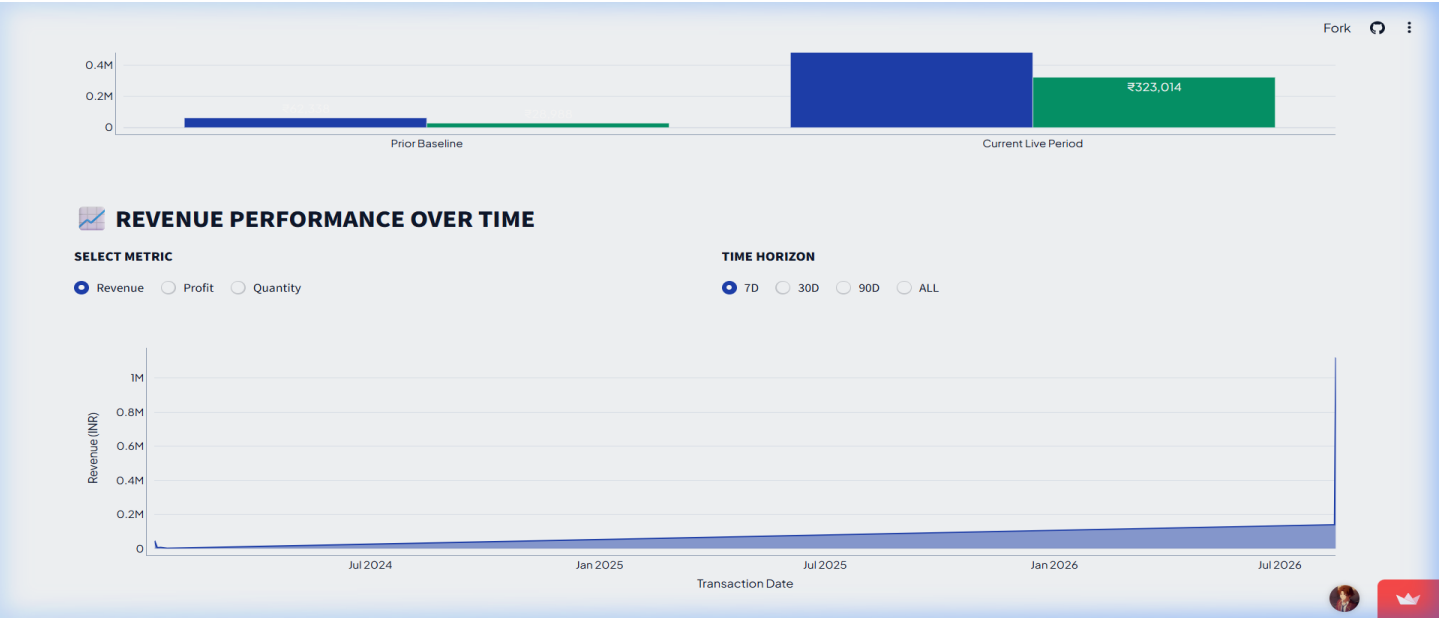

Key Presentation Points:

- **Stage 1 & 2:** Real-time store capture & automated digital quality filter
- **Stage 3 & 4:** RFM customer intelligence & interactive executive control center
- **Stage 5 & 6:** DeepSeek AI strategy advisor & automated morning PDF email briefs

Spoken Presentation Script (Non-Technical):

"To solve this, we built a 5-stage automated business pipeline. As customer purchases occur at store terminals, the data is captured, instantly filtered for 100% data quality, enriched with customer segments and predictive forecasts, presented on a live control dashboard, analyzed by our built-in AI strategy advisor, and delivered as an executive morning briefing email. Let's pass to Person 2 to see how store sales are captured and cleaned."

Business Takeaway: Stratify AI connects raw store transactions directly to executive inbox briefings.

3. Speaker Hand-off & Transition Script

Transition Words to Next Speaker:

"Thank you everyone. Now, to explain how our store sales are captured in real-time and filtered through an automated digital quality check before touching any business report, I'll hand over to Person 2."
