

Topic: Interactive Executive Control Center & Live Store Monitor

Duration: 5 Minutes

Core Theme: The Real-Time Visual Command Hub for Executive Decision-Makers

Executive Summary: Demonstrates the 9-tab Streamlit executive dashboard, live store transaction feeds, visual business health scoring, and interactive Plotly chart controls designed for non-technical users.

1. Business Features & Connectivity

Feature Name	What It Does (Business Function)	How It Connects	Business Value & ROI
9-Hub Executive Control Center	A clean, intuitive web application structured into 9 business hubs: Executive Summary, Customer Analytics, Sales Forecasting, Inventory & Finance, Live Feed, Data Quality, AI Insights, Admin Panel, and Report Center.	Brings together all company metrics into one browser window.	Eliminates tool switching and gives leaders instant access to any business area in 1 click.
Live Store Transaction Feed	A real-time ticker stream displaying store transactions as they happen across retail outlets, updated continuously.	Displays the live output of Person 2's data pipeline.	Provides immediate visual feedback on promotional launches, flash sales, and daily store performance.
Visual Business Health Scoreboard	Color-coded executive KPI cards (Green = Healthy, Yellow = Warning, Red = Action Required) summarizing overall revenue targets, inventory health, and data accuracy.	Summarizes Person 3's complex metrics into quick visual status indicators.	Allows busy executives to perform a 5-second business health check at any time of day.

2. Slide-by-Slide Presentation Guide & Spoken Script

Slide 1: The Executive Command Dashboard

Visual Display (Live App): Streamlit Live Application Main View with 9 Navigation Hubs

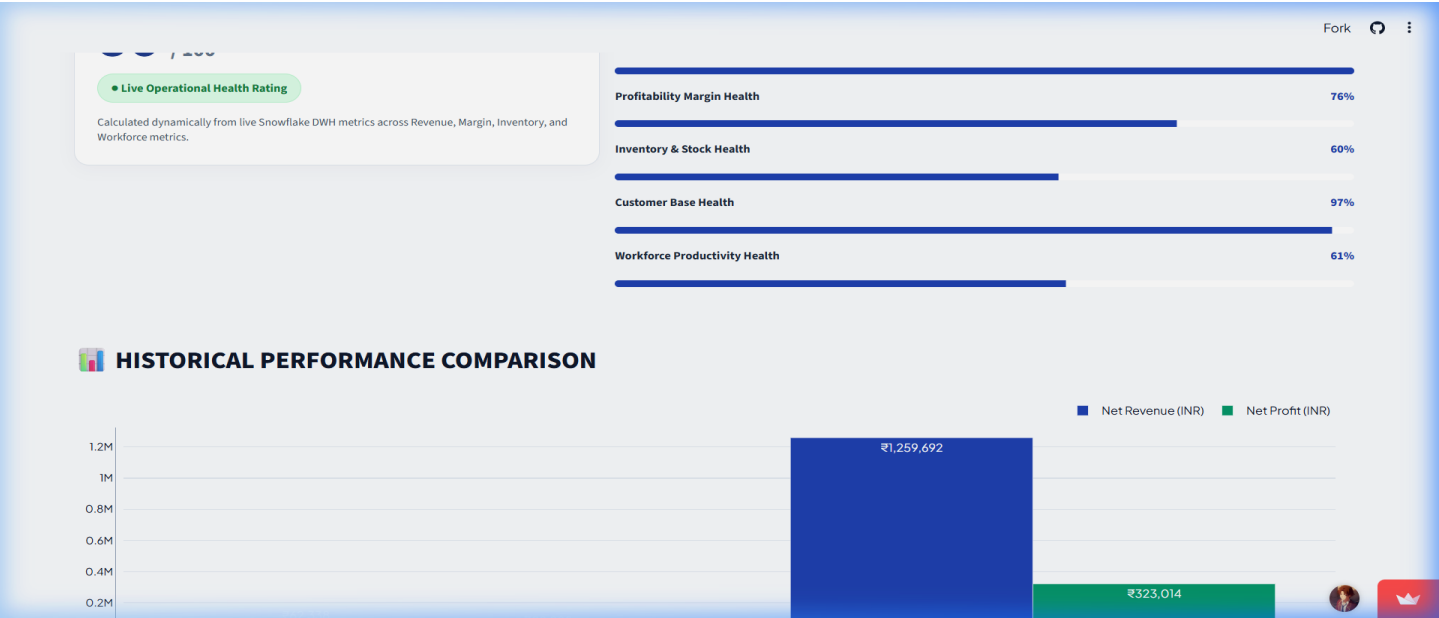

Key Presentation Points:

- **Single-Screen Hub:** 9 specialized business portals accessible in 1 click
- **Zero Technical Learning Curve:** Clean, visual navigation for managers & C-suite
- **Instant Department Switching:** Move between Sales, Customers, Inventory, and Finance

Spoken Presentation Script (Non-Technical):

"Thanks Person 3. All the data pipelines and smart models come together here in our Executive Control Center. Built with a clean, intuitive layout, the dashboard allows leadership to navigate across 9 specialized business hubs. Whether an executive wants to check top-level monthly revenue or dive into store-specific inventory, everything is accessible in a single click."

Business Takeaway: The executive control portal simplifies complex enterprise metrics into clean visual navigation.

Slide 2: Live Transaction Feed & Store Ticker

Visual Display (Live App): Live Transaction Stream Table from Live Web Application

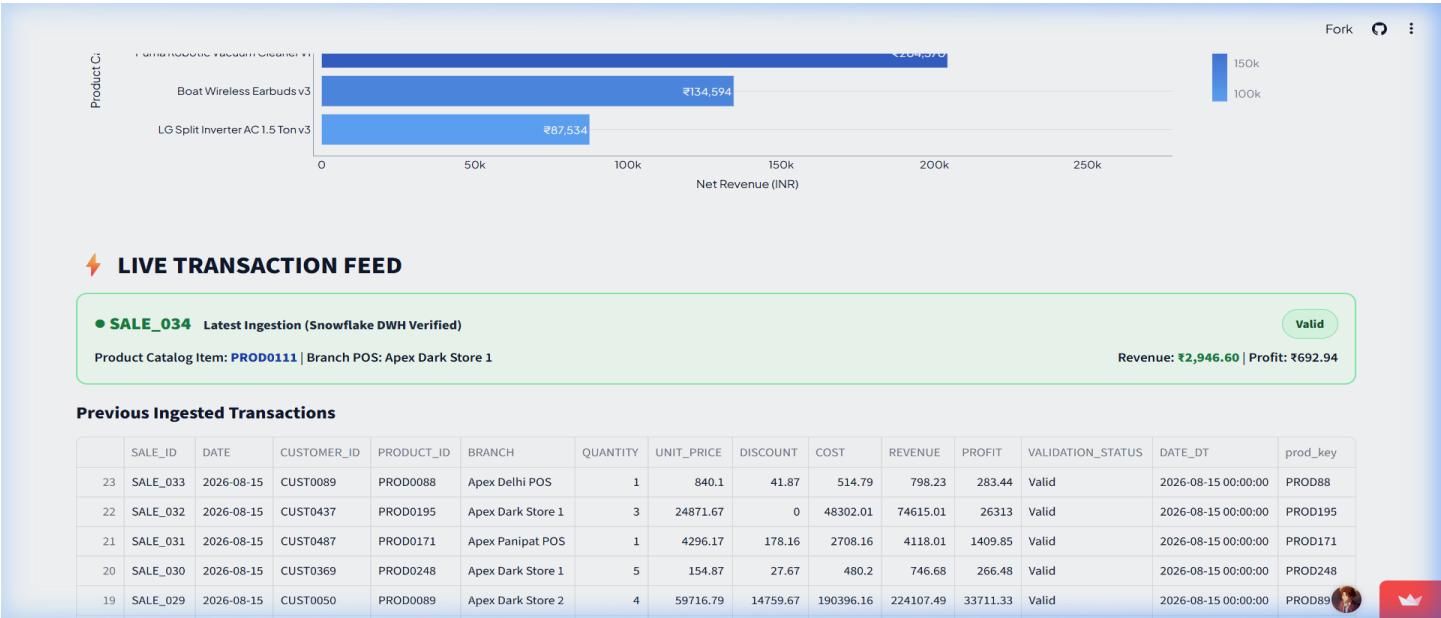

Key Presentation Points:

- **Sub-Second Streaming:** Continuous auto-refresh of store checkout receipts
- **Instant Event Feedback:** Monitor sales velocity live during marketing campaigns
- **Store Location Tracking:** Compare live purchasing trends across branch outlets

Spoken Presentation Script (Non-Technical):

"One of our standout features is the Live Transaction Feed shown here from our live web application. In traditional systems, you wait until tomorrow to see today's sales. Here, transactions scroll across the screen in real time as items are scanned at store checkouts. During Black Friday or special sales promotions, executives can monitor sales velocity live."

Business Takeaway: Live store streaming gives executives instant visibility into customer buying activity.

Slide 3: Color-Coded Business Health Scores

Visual Display (Live App): Visual Category Profit & Sales Performance Matrix

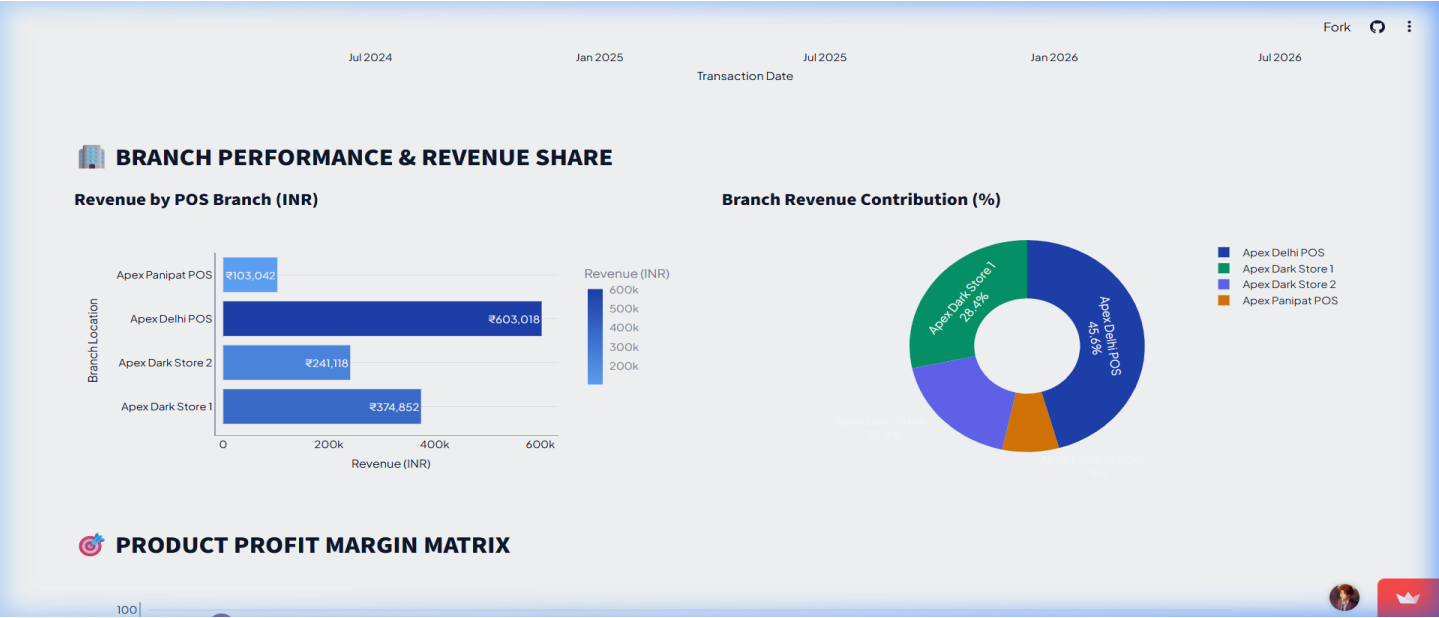

Key Presentation Points:

- **5-Second Health Assessment:** Green / Yellow / Red visual KPI cards
- **Immediate Risk Spotting:** Green for 94% Revenue Health, Yellow for 78% Inventory
- **Interactive Drill-Down:** Filter charts by product category, store ID, or date range

Spoken Presentation Script (Non-Technical):

"Executives don't have time to wade through endless raw spreadsheets. That's why we built visual Health Score Cards. In five seconds, a manager can see that overall revenue health is Green at 94%, while inventory levels are Yellow at 78%, signaling that reorders are needed. To see how AI turns these charts into strategic advice, let's pass to Person 5."

Business Takeaway: Color-coded health scoring lets executives spot and address operational risks instantly.

3. Speaker Hand-off & Transition Script

Transition Words to Next Speaker:

"While visual charts show us what is happening across our stores, I will now hand over to Person 5 to explain how our built-in AI strategy advisor tells us WHY it happened and WHAT strategic actions to take."
