| Presenter | Business Topic                                            | Core Business Function                                               | Key Output / Deliverable                                                                                                          |
|-----------|-----------------------------------------------------------|----------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------|
| Person 1  | Business Problem & Platform Vision                        | Overcoming Data Silos & Transforming Executive Decision-Making       | Eliminates reporting lag, reduces human manual errors by 95%, and provides C-suite executives with immediate operational clarity. |
| Person 2  | Live Store Capture & Smart Data Quality Control           | Garbage In, Garbage Out Prevention & Enterprise Data Reliability     | Ensures zero lag between customer purchases and central business awareness.                                                       |
| Person 3  | Customer Intelligence & Sales Growth Forecasting          | Turning Raw Sales Data into Customer Insights & Revenue Predictions  | Increases customer retention by identifying valuable buyers and alerting teams to churn risks before customers leave.             |
| Person 4  | Interactive Executive Control Center & Live Store Monitor | The Real-Time Visual Command Hub for Executive Decision-Makers       | Eliminates tool switching and gives leaders instant access to any business area in 1 click.                                       |
| Person 5  | AI Strategy Advisor & Plain English Business Q&A;         | Democratizing Artificial Intelligence for C-Suite Strategic Guidance | Acts as an on-demand business strategist, replacing hours of manual analyst reporting with instant AI summaries.                  |
| Person 6  | Automated Executive Reporting & Total Business ROI        | Zero-Touch Automated Delivery, Enterprise Security & Business Impact | Saves 15+ hours per week of manual report compilation by analysts and management.                                                 |

## Person 1: Business Problem & Platform Vision

Duration: 5 Minutes | Theme: Overcoming Data Silos & Transforming Executive Decision-Making

- Executive Summary:** Focuses on why traditional reporting fails modern businesses, introduces Stratify AI as a real-time decision intelligence platform, and maps out the end-to-end business flow across all 6 stages.
- **Slide 1 (Welcome & Executive Summary):** Stratify AI replaces static, delayed reporting with real-time strategic intelligence.
  - **Slide 2 (The Business Pain Points):** Manual reporting bottlenecks burn time and hide real-time revenue risks.
  - **Slide 3 (The End-to-End Stratify Solution Map):** Stratify AI connects raw store transactions directly to executive inbox briefings.
- Transition Script: "Thank you everyone. Now, to explain how our store sales are captured in real-time and filtered through an automated digital quality check before touching any business report, I'll hand over to Person 2."*

## Person 2: Live Store Capture & Smart Data Quality Control

**Duration:** 5 Minutes | **Theme:** Garbage In, Garbage Out Prevention & Enterprise Data Reliability

**Executive Summary:** Explains how live store transactions are continuously recorded, passed through an automated digital quality control filter, and stored securely so business reports are always 100% accurate.

- **Slide 1 (Capturing Sales at Point of Purchase):** Real-time store capture ensures business metrics reflect immediate market reality.
- **Slide 2 (The Digital Quality Control Filter):** Automated data verification guarantees 100% reliable executive reporting.
- **Slide 3 (Single Source of Business Truth):** A single source of clean data aligns all teams under one corporate truth.

***Transition Script:** "Now that we have established a continuous flow of 100% clean, verified store data, I will hand over to Person 3 to show how we extract customer intelligence, forecast future sales, and track inventory health."*

---

## Person 3: Customer Intelligence & Sales Growth Forecasting

**Duration:** 5 Minutes | **Theme:** Turning Raw Sales Data into Customer Insights & Revenue Predictions

**Executive Summary:** Focuses on customer RFM segmentation (Champions vs. At-Risk), predictive sales forecasting to plan inventory, and tracking product profit margins to maximize profitability.

- **Slide 1 (Customer RFM Segmentation Matrix):** RFM segmentation transforms generic customer lists into targeted revenue retention strategies.
- **Slide 2 (Predictive Sales & Revenue Forecasting):** Predictive forecasting turns reactive planning into proactive revenue management.
- **Slide 3 (Inventory Health & Margin Protection):** Inventory intelligence balances stock availability with maximum gross profit margin.

***Transition Script:** "Now that we've seen how clean data transforms into customer insights and sales forecasts, let's pass to Person 4 to experience our interactive, real-time Executive Control Center."*

---

## Person 4: Interactive Executive Control Center & Live Store Monitor

**Duration:** 5 Minutes | **Theme:** The Real-Time Visual Command Hub for Executive Decision-Makers

**Executive Summary:** Demonstrates the 9-tab Streamlit executive dashboard, live store transaction feeds, visual business health scoring, and interactive Plotly chart controls designed for non-technical users.

- **Slide 1 (The Executive Command Dashboard):** The executive control portal simplifies complex enterprise metrics into clean visual navigation.
- **Slide 2 (Live Transaction Feed & Store Ticker):** Live store streaming gives executives instant visibility into customer buying activity.
- **Slide 3 (Color-Coded Business Health Scores):** Color-coded health scoring lets executives spot and address operational risks instantly.

***Transition Script:** "While visual charts show us what is happening across our stores, I will now hand over to Person 5 to explain how our built-in AI strategy advisor tells us WHY it happened and WHAT strategic actions to take."*

---

## Person 5: AI Strategy Advisor & Plain English Business Q&A;

**Duration:** 5 Minutes | **Theme:** Democratizing Artificial Intelligence for C-Suite Strategic Guidance

**Executive Summary:** Focuses on the integrated DeepSeek AI advisor, natural language business Q&A, automated root-cause analysis, and strategic recommendation engine for business decision-makers.

- **Slide 1 (Your Digital Chief Data Officer):** AI strategy synthesis translates raw numbers into clear business stories.
- **Slide 2 (Plain English Business Q&A):** Natural language Q&A; empowers leadership to get instant answers without technical hurdles.
- **Slide 3 (Prescriptive Business Recommendations):** AI-driven recommendations convert insights directly into profitable business decisions.

***Transition Script:** "Now that we've seen how AI turns data into strategic advice, I'll hand over to Person 6 to show how these insights are automatically compiled into executive PDF briefings and delivered straight to leadership inboxes."*

---

## Person 6: Automated Executive Reporting & Total Business ROI

**Duration:** 5 Minutes | **Theme:** Zero-Touch Automated Delivery, Enterprise Security & Business Impact

**Executive Summary:** Covers the 8-page automated executive PDF briefing engine, Robotic Process Automation (RPA) email distribution via Gmail, data security, and total business ROI.

- **Slide 1 (Automated Executive PDF Briefings):** Automated PDF briefings deliver formatted executive reports with zero manual labor.
- **Slide 2 (Robotic Email Delivery (RPA)):** Robotic email distribution ensures leadership stays informed effortlessly every day.
- **Slide 3 (Business ROI & Conclusion):** Stratify AI turns disconnected retail data into automated revenue growth and executive agility.

***Transition Script:** "That concludes our 6-part presentation of Stratify AI. We would now like to open the floor to any questions from the executive team!"*
